Profile

IT graduate with a BSc in Information Technology and an MSc from Linköping University, plus two and a half years in a technical delivery role. Experienced in troubleshooting production systems, coordinating platform updates and license management, and writing documentation and user guides. Methodical under pressure, comfortable explaining technical problems clearly, and keen to build a career in IT support and service. Swedish studies completed through SFI courses C and D.

Core Skills

Support and Troubleshooting: troubleshooting, incident handling, root cause analysis, error logging, user support, technical documentation, user guides
Systems and Administration: platform updates, configuration, license management, deployment, scheduling, monitoring
Technical Foundation: SQL, Python, C#, Git, MySQL, SQL Server, automation (UiPath, Power Automate)
Languages: English (fluent), Sinhala (native), Swedish (SFI courses C and D completed)

Professional Experience

Associate Solutions Developer, RPA Feb 2023 -- Jul 2024
John Keells Information Technology (JKIT), Sri Lanka

- Troubleshot production failures across 15+ workflows for eight client engagements, finding root causes and restoring service.
- Coordinated platform updates and license management, keeping systems stable through a four-month platform migration.
- Built standard error handling and logging into every solution, making failures traceable and faster to diagnose.
- Monitored scheduled jobs in UiPath Orchestrator and fixed recurring issues so daily runs stayed on track.
- Worked with business analysts, project managers, and developers to resolve technical problems for client teams.

Intern, RPA Developer Feb 2022 -- Jan 2023
John Keells Information Technology (JKIT), Sri Lanka

- Maintained scheduled automations and fixed recurring stability issues to keep daily runs on track.
- Wrote process documentation and user guides that supported onboarding for new users and developers.
- Captured requirements and mapped business processes to support solution design.

Education

MSc Computational Social Science Aug 2024 -- Oct 2026
Linköping University, Norrköping, Sweden

BSc (Hons) Information Technology, Software Engineering 2019 -- 2023
Sri Lanka Institute of Information Technology (SLIIT)

Certifications and Training

UiPath Certified Automation Developer Associate (2024) | Microsoft Power Platform Fundamentals (2023) | UiPath Academy Specialized AI Associate Training (2025)
